

'Heritage' C-type 1953 Replica

Rolling Build Kit

The Realm Engineering 'Heritage' C-type has been developed from experiences gained after supplying 300+ similar units over the last 25 years. Certain areas of the build process were noted to be time consuming first time around, to this end the Rolling Build Kit unit covers these areas, the parts supplied and fitted are specifically designed for the 'Heritage' car and would need to be acquired during this part of the assembly. All that is needed is to install engine, gearbox, clutch/bell housing, all the electrical components, interior and finishing build up to complete.
